

The first cartridge mixer with dynamic mixing
2K CARTRIDGE MIXER
LC-DCM

Learn more on our product page!

2K CARTRIDGE MIXER
 with universal adapter

- + Dynamic mixing system for many common cartridges
- + Multiple increase of the flow rate possible with similar configuration and pressure (depending on material)
- + Suitable for extreme mixing ratios and large viscosity differences
- + Precise mixing of 2K systems
- + Neither cartridge nor material linked
- + Reusable adapter for more flexibility
- + Further adapters available on request
- + Easy handling

Mischen „is possible“ – our company slogan says what we have proven several times. Wether large viscosity difference or extreme mixing ratio applications: Mixing is possible!
